

Auszug aus den „PMI Friday Facts“ vom 30. Oktober 2015:

## **PMI Munich Germany Chapter Uses PM Skills to Support Syrian Refugees**

**Resources are being built to help refugees manage the language difference in their new locales**

The PMI Munich Germany Chapter is supporting Syrian refugees locally by identifying key areas of need and using their PM skills to create solutions.

The chapter works locally with schools to help students overcome the vocabulary challenges that come from moving to a new country. They are also helping schools build relationships with local refugee support organizations.

The PMI Munich Germany Chapter has also supported Syrian refugees by creating an Internet platform of resources to serve the community. The Chapter's involvement with the refugee program allows for different levels of volunteer commitment to meet chapter members' needs.
